

## RO membranes separate the bad from the good leaving...

- **Great-tasting water**  
Reduces sediment, chlorine, and organic contaminants as well as bad taste and odors
- **High-quality water**  
Reduces sodium, calcium, chloride, sulfates, and heavy metals
- **Super-clean water**  
Filters lead, arsenic, and much more...

**Rejects up to 96% of the impurities in your water**

**Reverse Osmosis (RO) System  
for High-Quality Water**

# Watts Has the Solution to Remove the Majority of Impurities from Your Drinking Water

Reverse Osmosis (RO) operates at the molecular level to separate clean water from the majority of impurities that may be found in water.

The Watts RO system reduces particulates and other sediment in water.

Our easy-maintenance Kwik-Change™ RO system features effective, four-step filtration so your family can enjoy highly purified, great-tasting water as well as peace of mind.

## Kwik-Change™ RO Proprietary Cartridge System

### Reduces Minerals, Heavy Metals and VOCs

The Kwik-Change™ RO system will protect your family from a wide range of impurities and contaminants that may be found in drinking water. The system reduces dissolved solids found in water, including metals, salts, and minerals.

- 1/4-turn pivot filter heads reduce space requirements, provide easy access
- Built-in shutoff valves speed up filter replacement
- High-production membrane filters contaminants down to 1/10,000 of a micron\*
- Top Mount Designer Faucet included
- Adapt-A-Valve™ easily connects to water source
- Eliminates need for bottled water

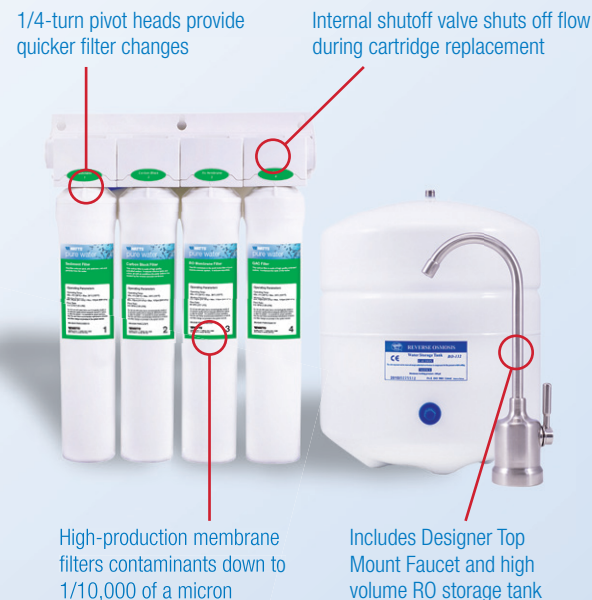

\* One grain of salt equals approximately 100 microns

## High-Quality Water Made Simple

- **Healthy**  
Reduces chlorine, lead, VOC's, impurities and reduces particulate and other sediment
- **Convenient**  
Kwik-Change cartridges with auto-shutoff
- **Reliable**  
Double O-Rings in each cartridge prevents leaks

## 4-STEP WATER PURIFICATION

- 1 Sediment Pre-Filter** reduces suspended particles
- 2 Carbon Pre-Filter** reduces chlorine, unpleasant tastes, and odors
- 3 RO Membrane** removes up to 96% of dissolved solids
- 4 Carbon Post-Filter** for final "polishing" of drinking water

 **LET IT FLOW**
